

Instrumentation GDD Inc. appoint Mrs Circé Malo Lalande as General Manager

QUEBEC CITY, QUEBEC (January 5, 2015) – Instrumentation GDD Inc. is pleased to announce the appointment of Mrs Circé Malo Lalande as General Manager.

Mrs Malo Lalande has over 15 years' experience in mining exploration. Before joining the team, Mrs Malo Lalande held various positions in geophysics for major companies like Anglo American Exploration Canada, Abitibi-Geophysics and SOQEM. Geophysicist, Mrs. Malo Lalande has a degree in geological engineering from Laval University and held a Master degree in applied geophysics with an expertise in electromagnetism from Polytechnique Montréal.

"Mrs Malo Lalande is an important asset for Instrumentation GDD. Her experience, training and leadership will greatly help the company's research and development. Also, our customers will benefit from her expertise. They will be able to receive proper and good quality training for the NordicEM24. Therefore, I wish to welcome her within our team" declared President Pierre Gaucher.

About Instrumentation GDD Inc.

Instrumentation GDD Inc. is a world leader in high-tech geophysical instrumentation for mining and exploration geophysics. Since 1977, GDD has developed, manufactured and sold a wide range of electromagnetic (EM) and induced polarization geophysical instruments.
